## INDEPENDENT AUDITORS' REPORT

Board of Directors  
MMC Securities Corp.:

We have audited the accompanying statement of financial condition of MMC Securities Corp. (the Company), an indirect wholly-owned subsidiary of Marsh & McLennan Companies, Inc., as of December 31, 2007, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with generally accepted auditing standards as established by the Auditing Standards Board (United States) and in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such statement of financial condition presents fairly, in all material respects, the financial position of MMC Securities Corp. at December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

## **MMC SECURITIES CORP.**

**(an Indirect Wholly-Owned Subsidiary of  
Marsh & McLennan Companies, Inc.)**

### **NOTES TO STATEMENT OF FINANCIAL CONDITION DECEMBER 31, 2007**

---

#### **1. ORGANIZATION**

MMC Securities Corp. (the "Company" or "MMCSC") is an indirect wholly-owned subsidiary of Marsh & McLennan Companies, Inc. ("MMC"). The Company is a broker-dealer registered with the United States Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority, Inc.

MMCSC provides the following services:

- administrative and recordkeeping services for defined contribution plans;
- 401 (k) rollover business;
- distribution of proprietary mutual funds and variable annuity contracts;
- information and assistance in determining the selection of mutual funds and variable product vendors for employee benefit plans;
- mergers and acquisitions related business activity, including advisory services to clients on capital adequacy and raising equity capital;
- assistance to corporate clients in providing financial risk solutions through structured transactions involving risk transfer and project finance;
- administrative services in connection with retirement programs covering members of trade associations;
- executive compensation and benefits consulting services to companies and executives; and
- investment banking and capital markets services to insurance and reinsurance clients.

The Company does not hold customer securities or customer funds.

#### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Cash and cash equivalents** - Cash equivalents consist of demand deposits with original maturities of three months or less. The estimated fair value of the Company's cash equivalents approximates their carrying value due to their short-term nature.

**Short-term Investment** -- Short-term investment consists of a money-market fund that invests in government securities. The carrying value of the financial instrument approximates fair value due to the short-term maturity of such instrument.

**Income Taxes** - The Company is included in the consolidated federal income tax return filed by MMC. Federal income taxes are calculated for the Company as if it filed a separate return and are payable to MMC. The Company files a separate return for state and local income taxes. Income tax receivable represents amounts due from various state tax authorities resulting from overpayment of taxes.

**Use of Estimates** - The preparation of the statement of financial condition in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

**New Accounting Pronouncements** - On January 1, 2007, MMCSC adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109" ("FIN 48"), which clarifies the accounting for uncertainty in income tax positions. This interpretation requires that MMCSC recognize in its statement of financial condition the impact of a tax position when it is more likely than not that the tax position would be sustained upon examination by the tax authorities based on the technical merits of the position. The adoption of FIN 48 did not impact the financial position of MMCSC, since the company concluded that no uncertain tax positions exist as of December 31, 2007.

### **3. RELATED PARTY TRANSACTIONS**

MMCSC transfers, on a daily basis, certain excess operating cash balances on account with a third party to an interest bearing account with an affiliated company. The Company's receivable from affiliates balance of \$15,931,709 is principally comprised of an interest bearing account of \$13,170,317. The remaining balance of receivable from affiliates represents receivables created in connection with the Company providing those services as itemized in Note 1 in support of various companies within MMC.

The Company's payable to affiliates balance of \$1,316,987 represents liabilities for the cost of certain administrative services provided to the Company by various companies within MMC. The receivable and payable to affiliates are settled on a monthly or quarterly basis depending on the counterparty.

### **4. NET CAPITAL REQUIREMENTS**

The Company is subject to the Uniform Net Capital Rule (Rule 15c3-1), under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15:1. At December 31, 2007, MMCSC had net capital of \$3,875,583 which was \$3,669,574 in excess of its required net capital of \$206,009. MMCSC's aggregate indebtedness at December 31, 2007 was \$3,090,128. MMCSC's ratio of aggregate indebtedness to net capital was .80 to 1.

### **5. CAPITAL WITHDRAWAL**

Pursuant to Rule 15c3-1(e)(1) of the Securities Exchange Act of 1934, MMCSC provided written notification to the U.S. Securities and Exchange Commission that the Company planned to repurchase 70 shares of its common stock held by Mercer Securities Inc. This transaction occurred March 28, 2007 and reduced shareholders' equity by \$2,634,938.

\* \* \* \* \*

February 27, 2008

MMC Securities Corp.  
1166 Avenue of the Americas  
New York, N.Y. 10036

In planning and performing our audit of the financial statements of MMC Securities Corp. (the "Company") as of and for the year ended December 31, 2007 (on which we issued our report dated February 27, 2008), in accordance with generally accepted auditing standards as established by the Auditing Standards Board (United States) and in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States), we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934, and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2007, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, Financial Industry Regulatory Authority, Inc., and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered broker-dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Yours truly,

*Deloitte & Touche LLP*
